

MARTIN GADET

UI/UX Designer — available from October 2026

Igny (91) • +33 6 31 60 40 53 • gadet.martin@gmail.com • linkedin.com/in/martin-gadet • [Portfolio](#)

PROFILE

I have been passionate about experience design since my BUT in Computer Science, and I chose to build on this dual skill set with a Master's in HCI at Université Paris-Saclay, where I learned to lead a project from user research to a high-fidelity prototype. My internship at Orange France let me put this approach into practice in a real work setting. What sets me apart is my background as a developer: I understand the technical constraints of a product team, and I design interfaces that take feasibility into account, not just the ideal solution.

SKILLS

Design & UX research : user research, story interviews, user testing, wireframing, paper and high-fidelity prototyping, design systems, UI design

Software : Figma, Draw.io, Unity, Fusion 360, Blender, Office, Visual Paradigm

Programming : HTML, CSS, JavaScript, C++, C#, Java, Python, SQL, Git

Soft skills : written and verbal communication, punctuality, autonomy, teamwork, creativity

PROFESSIONAL EXPERIENCE

UX Designer Intern (6 months)

Orange France — Payment and Termination Department | Arcueil, France | March 2026 — August 2026

Designed an internal wiki for the Payment and Termination Department (DPR).

- Led brainstorming sessions with business teams
- Carried out user needs research
- Created and tested a paper prototype with users
- Created and tested a high-fidelity Figma prototype with users
- Used the Orange design system (Design Tokens, Components)
- Wrote the project documentation

Software & Web Developer Apprentice (2 years)

CEA — Robotics Control and Supervision Laboratory (LCSR) | Palaiseau, France | 2022 — 2024

Built a knowledge-sharing wiki for the LCSR: specifications document, Draw.io prototype, development with MediaWiki, deployment and documentation.

Software development on the CORTEX robotic control application: built a feature to share position data via ROS (Robot Operating System), and improved the XDE/ML math library (a C++ matrix computation library).

Temporary Worker (2 weeks)

CEA — Human Resources Department | Saclay, France | July 2021

Migrated and checked the consistency of the CEA expert's database.

PERSONAL PROJECTS

BingeBuddies — collaborative content-picking app

Let a group of users vote on content to watch and stream it together online: story interviews, paper prototype then high-fidelity Draw.io prototype, web development, and user testing of the final app.

StyleSync — improving Google Slides

Rethought Google Slides features to improve usability: sketches, paper prototype then high-fidelity prototype, demo videos of the interactions.

Blockade — game menus and interface

Designed and built the menus and interface for a video game in Unity, from specifications to integration.

EDUCATION

Master's in HCI (Human-Computer Interaction)

PUIO, Gif-sur-Yvette — Université Paris-Saclay | 2024 — 2026

BUT in Computer Science — Application Development track

IUT d'Orsay — Université Paris-Saclay | 2021 — 2024

French Baccalaureate (Général), with Honors

Lycée Parc de Vilgénis, Massy, France | 2018 — 2021

Majors: Physics-Chemistry, Mathematics, Digital and Computer Science.

INTERESTS

Climbing • Music (bass, drums) • Cinema • Video games • Design and tech watch
